

AAI Scientific Cultural Services Ltd Lab for Human Brain Dynamics

**Where science serves society and
the public meets scientists!**

Introduction to the project “Dynamic Electric Field Tomography (DEFT) and its applications” BUSINESS/PRODUCT/0311/42

**Monday, 19th November 2012, 6-8pm
Centrum Hotel, Nicosia**

- **The latest results from research projects:**
 - Dr John Stein (Oxford): Dyslexia and simple ways of tackling it
 - Monitoring epilepsy at home
 - Attention and much more
- **Introducing the new project DEFT:**
 - Better brain imaging using EEG
 - Making EEG easier to apply to people who may benefit most
 - Your participation in the project will be rewarded with a valuable behaviour and brain examination for free

Pre-registration is required at www.aaiscs.com/LHBD/events.htm,
or by email events@aaiscs.com or fax 22028060

The project DEFT and the event are co-funded by the Cyprus Research Promotion Foundation and the European Regional Development Fund
